## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 6,295,664 (Fritz).

The Fritz reference discloses a head fitting comprising an elbow (26 and 12), an annular flange 32, a cylindrical collar (portion of element 26 facing bottom of page), a test plug comprising a flat plate 15 and a flat tab (in middle of flat plate, see Figure 2). Regarding claim 6, the claimed method is inherently performed during the normal use of the Fritz fitting.
